

Construction Advisory

South Stonestreet Avenue Roadway Diet Project

Project Description: The City of Rockville's contractor, *M. Luis Construction Co. Inc.*, will install a sidewalk on the west side of South Stonestreet Avenue and a bike lane on the east side of South Stonestreet Avenue between Baltimore Road and Park Road. Work is scheduled to begin the week of April 24 and should last approximately three months, weather permitting. Other elements of the project include reduction in lanes from four to three, curb and gutter replacement, Americans with Disabilities Act accessibility upgrades, stormwater management, and minor drainage modifications.

Project impacts during construction will include temporary and permanent lane closures, and construction noise. Signs will be posted to notify motorists and residents of any lane closures. Only half of the driveway for the 485 S. Stonestreet Avenue parking lot will be closed at a time, meaning it will remain open at all times during construction.

Purpose: To improve safety, walkability, and multimodal access to the metro station by installing a sidewalk on the west side of South Stonestreet Avenue and a bike lane on the east side.

Location: South Stonestreet Avenue between Baltimore Road and Park Road.

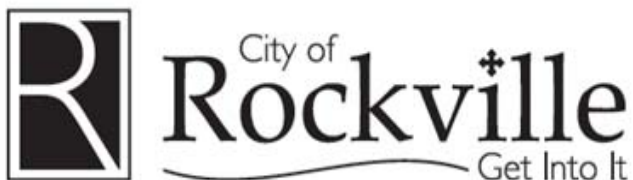

Timeline: Beginning in late April and lasting approximately three months.

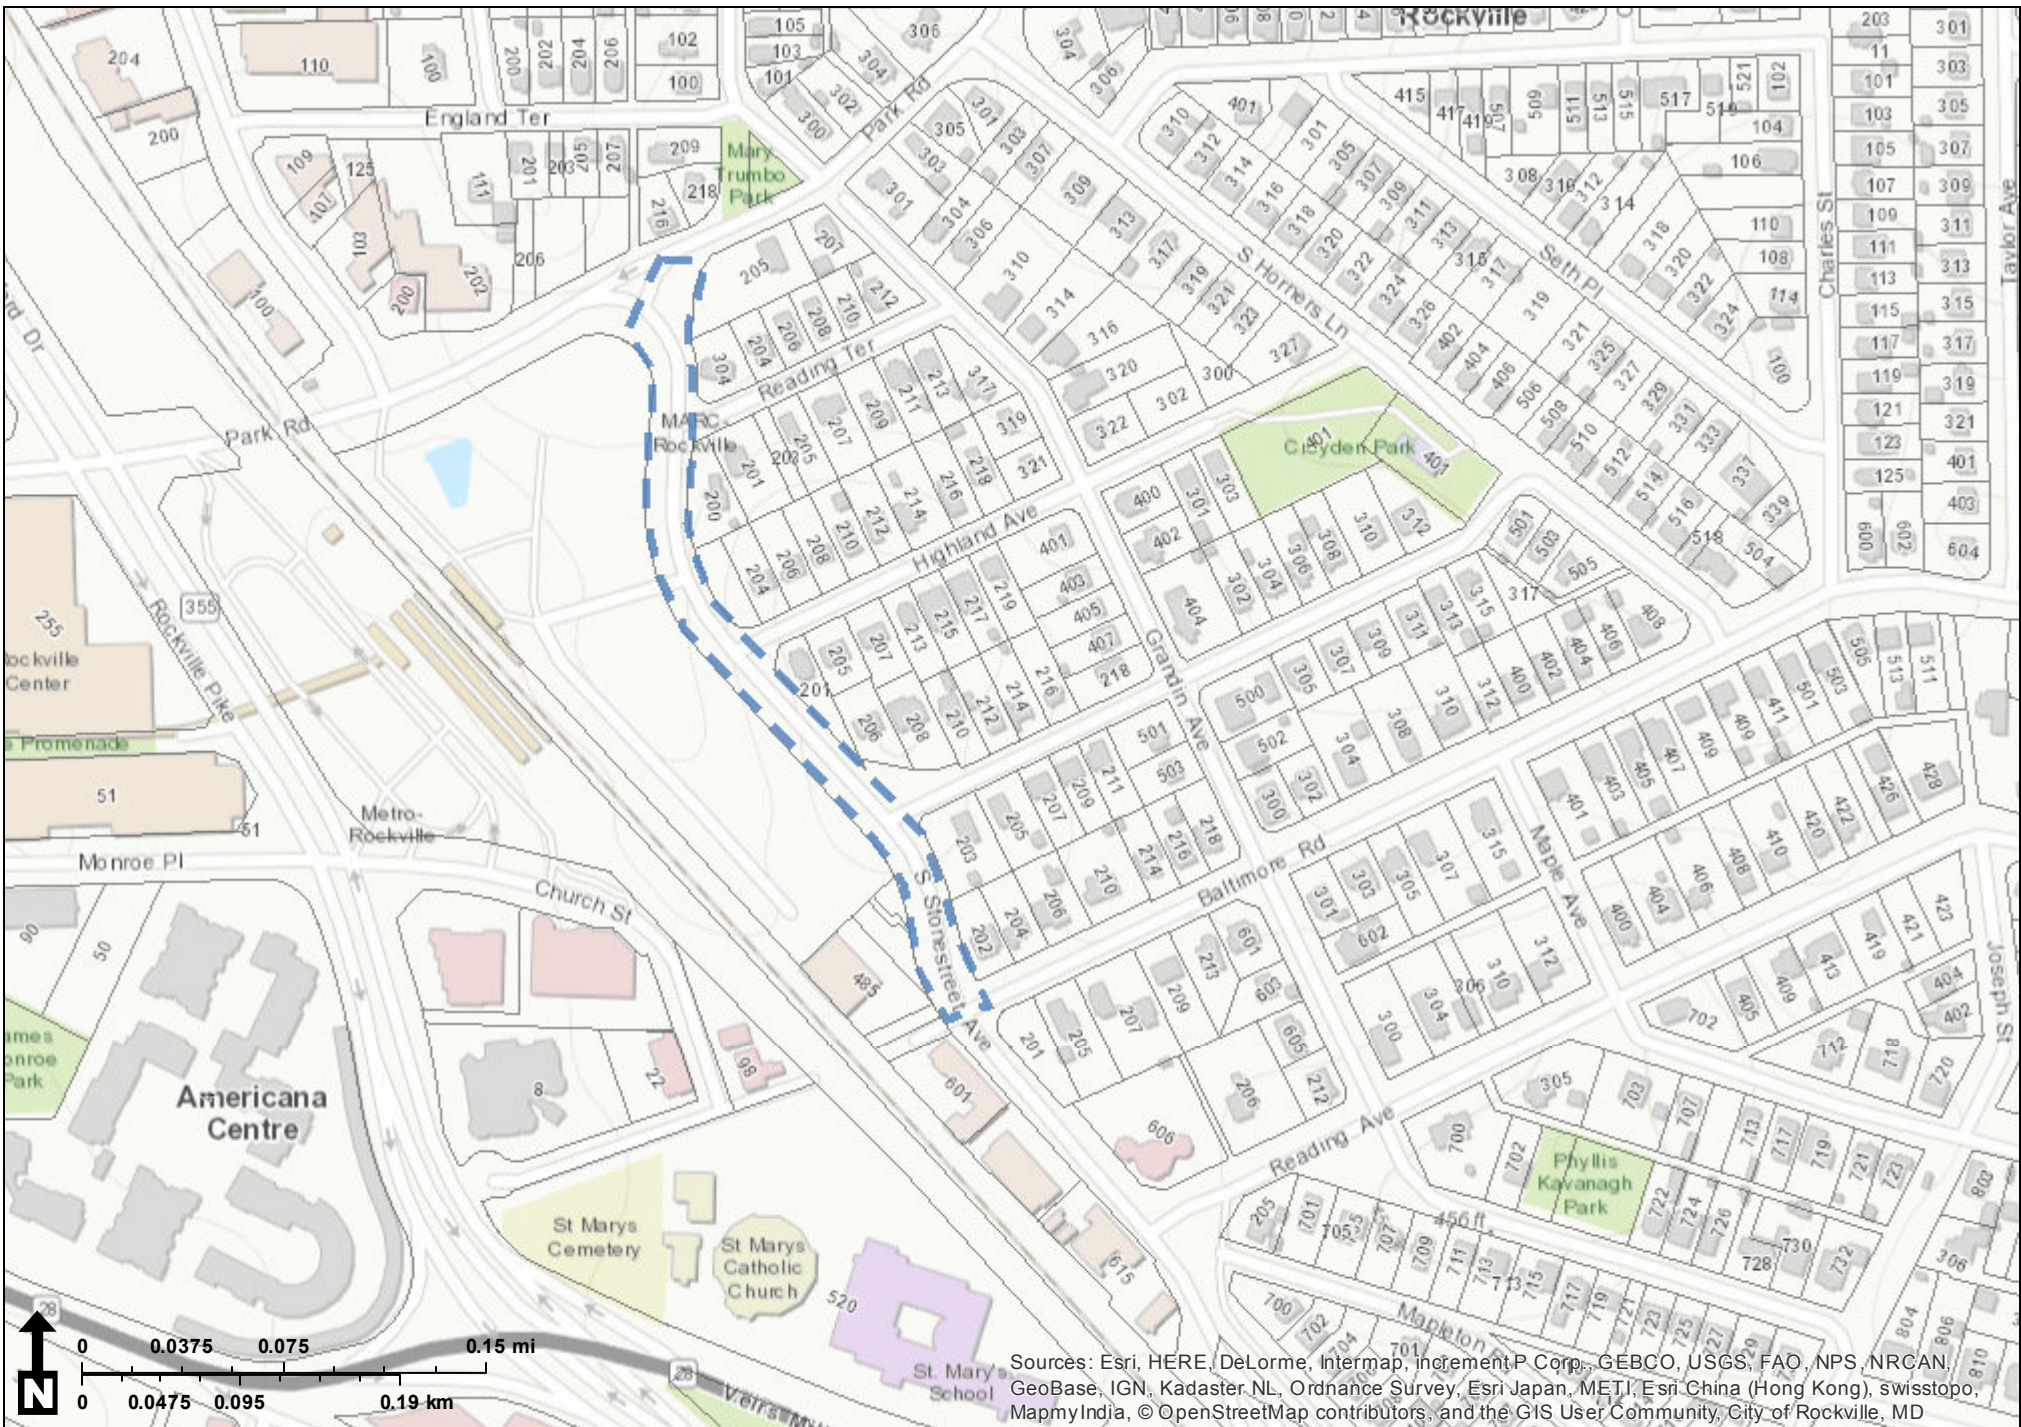

Cost: \$390,000.
