

# Construction Advisory

## Harrison Street Sidewalk Project

**Project Description:** The City of Rockville's contractor, *E&R Services, Inc.*, will install a five-foot wide pervious concrete sidewalk on the south side of Harrison Street between Forest Avenue and North Van Buren Street. Work is scheduled to begin the week of June 26 and should last approximately seven weeks. In addition to the sidewalk, the project will narrow the roadway to a width of 21-feet, replace curb and gutter on the street's south side, make minor storm drain modifications at the southeast corner of Forest Avenue and Harrison Street, and resurface the roadway.

Project impacts during construction will include temporary driveway closures, on-street parking restrictions, and construction noise. Driveway closures will be necessary when the sidewalk and driveway aprons are being constructed. The contractor will notify residents of individual closures 48 hours in advance of when they will take place. Driveways will likely be inaccessible for 72 hours after being closed, to allow for concrete curing. Signs will be posted to notify motorists and residents of temporary parking restrictions and lane closures.

**Purpose:** To improve safety and walkability by installing a sidewalk on the south side of Harrison Street.

**Location:** South side of Harrison Street between Forest Avenue and North Van Buren Street.

**Timeline:** Beginning the week of June 26 and lasting approximately seven weeks.

**Cost:** \$285,000, with most of the cost paid by a federal Safe Routes to School grant that the city was awarded by the Maryland State Highway Administration.
