

Construction Advisory

Traffic Signal Reconstruction at E. Jefferson Street and Rollins Avenue

Project Description: The City of Rockville's contractor, *AJ Romano, Inc.*, and their subcontractor, *Baldwin Line Construction* will replace traffic signal components and install Americans with Disabilities Act-compliant (ADA) sidewalk ramps at the intersection of East Jefferson Street and Rollins Avenue. Work is scheduled to begin the week of Sept. 18 and should last approximately four weeks.

Project impacts during construction will include temporary lane closures, on-street parking restrictions and construction noise. Signs will be posted to notify motorists and residents of any temporary parking restrictions, lane closures, and pedestrian detours.

Purpose: To replace traffic signal components and install ADA-compliant sidewalk ramps.

Location: Intersection of East Jefferson Street and Rollins Avenue.

Timeline: Expected to begin the week of Sept. 18 and last approximately four weeks.

Cost: These improvements are part of the Twinbrook Area Pedestrian Safety Improvements Project, whose total cost is \$625,000. It is largely funded by a Transportation, Community, and System Preservation Program federal earmark awarded to the city by the Maryland State Highway Administration.
