POLICE CRIME REPORT

December 2, 2019 to December 8, 2019

Monthly Public Safety Information

December is National Drunk and Drugged Driving Prevention Month. First started in December of 1981, this campaign focuses on the period between Thanksgiving and Christmas to raise awareness of the issues of impaired driving. This period is regarded as "one of the deadliest and most dangerous times on America's roadways". Below are facts provided by the National Highway Traffic Safety Administration regarding impaired driving.

- It is illegal to drive with a BAC of 0.08% or higher in 49 states, including the District of Columbia. There is only one state where this is different, Utah, where the legal limit is lower than the national limit at just 0.05% BAC.

– Even if you believe you are not above a 0.08% BAC and only "buzzed" you can still be charged with a DUI. **If you feel different you drive different, buzzed driving is drunk driving.**

– According to the NHSTA, 885 people were killed in traffic incidents involving a drunk driver in just the month of December in 2017. 267 of these fatalities occurred between December 25th (Christmas) and New Year's Day (January 1st).

– Approximately 33% of all traffic fatalities annually are a result of drunk drivers [BAC of .08%]. In 2017, that was 10,874 lives lost.

– A DUI is not limited to just alcohol consumption. Driving following the consumption of alcohol or narcotics is impaired driving.

– On average, a single DUI could set you back $10,000 in attorney's fees, fines, court costs, lost time at work, higher insurance rates, car towing, and more. A second offense could cost you thousands more.

– **If you see someone on the road who you believe is driving impaired, call 9-1-1**

WRAP's 2019 Holiday SoberRide® program, in partnership with Lyft, will be offered nightly from 10:00 p.m. until 4:00 a.m. from December 20, 2019 to January 1, 2020.
