Planning Commission Staff Report:
Zoning Text Amendment TXT2014-00238

MEETING DATE: August 6, 2014
REPORT DATE: July 30, 2014
FROM: Deane Mellander, Zoning Administrator
Planning and Zoning Division
240.314.8224
dmellander@rockvillemd.gov
 APPLICATION DESCRIPTION: The applicant's request is to amend the code to allow for a restaurant with a drive-through window as a conditional use in the MXE Zone
APPLICANT: Potomac Foods Group; Miller, Miller and Canby, Attorneys
FILING DATE: May 22, 2014
RECOMMENDATION: The staff recommends approval of a modified version of the applicant's request
EXECUTIVE SUMMARY: The proposed amendment would allow for a restaurant with a drive-through window in the MXE Zone if a property contains an existing hotel and has 200 feet of frontage on a major highway. The staff recommends deleting the requirements that the use be located with an existing hotel and delete the requirement for 200 feet of frontage on a major roadway.

APPLICANT’S PROPOSAL

This text amendment application (see Attachments 1 and 2) proposes to include a restaurant with drive-through as a conditional use in the land use tables for the Mixed-Use Employment (MXE) zone and add a new subsection e to Section 25.13.04, “Special Regulations for Conditional Uses” to allow the use if the site has at least 200 feet of frontage on a major highway along the front lot line and has an existing hotel use on the site.

RECOMMENDATION

Staff does not support the request as submitted but would support a modified version as described below. The staff would not support a proposal to allow drive-through restaurants generally in the MXE Zone. The zone is primarily “intended for areas that are either currently developed or are recommended for development primarily for office, light industrial, and industrial park uses...” The MXE Zone was created and applied in 2009 as part of the comprehensive revisions to the zoning ordinance and the zoning map. Hotels (including motels) and restaurants without a drive-through are permitted uses in the zone. A restaurant with drive-through is allowed by special exception in the MXCD, MXB and MXC zones but not permitted in the other mixed-use zones. Allowing this use anywhere in the zone might tend to tilt the uses more toward highway commercial uses rather than the employment and service uses that are the primary intent of the zone. Limiting the use to properties fronting on a major arterial roadway addresses that concern.

The staff is willing to support the general intent of this proposal, but recommends that the limitation on being located on the same site as an existing hotel be deleted as there is not a clear link between the uses, such that they should be located on the same property.

The requirement for 200 feet of frontage seems onerous in view of the fact that the minimum amount of frontage in the MXE Zone is ten feet. Staff recommends that it be deleted and modify the provision to require access as well as frontage on a major arterial roadway to be consistent with the city’s roadway classification terminology. The proposed revised language is shown as Attachment 4. The site plan review process can assess the compatibility of the use with the surrounding uses and address traffic concerns.

Staff notes that the major arterials with abutting property in the MXE Zone are Shady Grove Road, West Gude Drive and West Montgomery Avenue west of I-270.

ANALYSIS

As originally submitted, the proposed amendment did not propose to amend the land use tables to reflect the intent that this be a conditional use. Attachment 2 is the reformatted version of the applicant’s submittal to be consistent with the code’s format. In the Land Use tables a “C” would replace the “N” under the MXE Zone column, and additional reference language in the Conditional Requirements column would be added. The specific conditions are
then shown in the new subsection e. Items e.1 and e.2 come from the applicant's initial submission.

The proposed text amendment as submitted would limit drive-through restaurants only to sites zoned MXE that have an existing hotel (which includes motels) with a minimum of 200 feet of frontage on a major arterial roadway. Within the city, there are six hotels in the MXE zone, as follows (see Attachment 3):

- Courtyard/Marriott: 2500 Research Blvd.; ±490 feet of frontage on Shady Grove Rd.
- Best Western: 1251 W. Montgomery Ave.; ±450 feet of frontage on W. Montgomery Ave.
- Quality Suites: 1380 Piccard Drive: Not a major arterial
- Red Roof Inn: 16001 Shady Grove Rd.: ±550 feet of frontage on Shady Grove Rd.
- Crown Plaza: 3 Research Ct.: Not a major arterial
- Sleep Inn: 2 Research Ct.: Not a major arterial

The staff notes that although the Quality Suites, Crown Plaza and Sleep Inn do not have access to a major arterial, they are all through lots that adjoin the I-270 right-of-way which by definition gives them “frontage” on a limited access freeway which might be construed to be a major arterial roadway. In addition, the city’s Comprehensive Master Plan does not define a “major highway”. Instead, it defines a “major arterial” roadway, one that has lanes divided by a median, limited access points, and a daily traffic volume exceeding 25,000 vehicles.

The applicant’s site of interest is the Red Roof Inn on Shady Grove Road. The site has a restaurant on-site that is currently vacant. Two other hotels would qualify under the requirements of the text amendment as submitted – the Courtyard/Marriott and the Best Western. The other three hotels do not have access to a major arterial. Note that Shady Grove Road is outside the City’s jurisdiction, but is designated as a major highway in the County’s master plan which is equivalent to the city’s major arterial classification.

The proposed text amendment, as recommended by the staff, would require site plan approval, including an APFO review, prior to allowing the use on a property. Approval of the text amendment does not approve any future project.
